

A photograph of a business meeting in progress. Several people are seated around a table, their hands visible as they interact with a laptop, a tablet, and various documents. One person is pointing at a document with a pen. The scene is dimly lit, with a focus on the hands and the devices. The overall atmosphere is professional and collaborative.

Company Introduction

수번역회사는

비즈니스 뿐 아니라 문화 및 개인의 생활까지 공유하는 세계적 추세에 발맞추어 '정보의 전달'과 '이해', 그리고 '소통'을 가장 큰 가치로 여기고 있습니다.

단순한 언어의 해석이 아닌 각 나라마다의 고유한 문화와 실정에 맞게 정보를 이해하고 소통하는 것이 경쟁력 확보를 위한 필수조건입니다.

수번역회사는

세계가 주력하는 산업의 각 분야에서 해외로 진출하려는 한국 기업들 뿐 아니라 한국에서 사업을 계획하는 해외 기업들에게 그 나라 실정에 맞는 정보를 제공하고, 각 기업 성격에 적합한 전문적 소통방식으로 언어 간의, 기업 간의 더 나아가서는 국가 간의 완벽한 가교역할을 하고 있습니다.

수번역회사는

현지경험과 전문성을 겸비한 다국적 인력 네트워크를 보유하고 있으며, 또한 전문 인력들과 고객간의 완전한 커넥션을 위하여 각 프로젝트 전담 관리 시스템을 운영하고 있습니다. 정확한 정보제공과 완성도 높은 고품질 번역 및 통역 서비스를 통하여 고객의 성공을 이끌어 내도록 최선을 다해 노력할 것입니다.

CJ ENM 2022 ESG Report

CJ ENM OVERVIEW | ESG FOUNDATIONS | 2022 ESG HIGHLIGHTS | ESG DISCLOSURE | APPENDIX

ESG MANAGEMENT STRATEGY

ESG Placement

CJ ENM strives to bring positive changes to the environment and the industrial ecosystem based on ESG management.

To create more values in the world through a captivating 'content and brand' experience, CJ ENM implements systematic ESG management based on the roadmap. We comply with global standards and guidelines, thereby going in hand with local and global communities as a responsible corporate citizen.

ESG Mission

We create a more valuable world with our captivating 'content and brand' experiences.

ESG Pillars

| | | |
|---|--|---|
| <p>PLANET Earth, Water, Air and Nature</p> <ul style="list-style-type: none"> We make a commitment to conserve natural environment We put effort to minimize carbon footprints We strive to reduce wastes | <p>PEOPLE A Culture of Diversity, Equity and Inclusion</p> <ul style="list-style-type: none"> We respect the dignity of all members of the ecosystem We understand and respect diversity of lifestyles and thoughts We support a healthy ecosystem where all can grow together | <p>BUSINESS Rising Out the Best with Stories We've Covered Close to the World</p> <ul style="list-style-type: none"> We create a Good Impact and deliver excitement through our content and brands We create sharing value with stories connecting individuals and the world |
|---|--|---|

Goal

| | | | |
|------|--|--|---|
| 2030 | Expanding infrastructure and investment in development for eco-friendly management | Building a virtuous cycle of the industrial ecosystem through establishment a comprehensive ESG system | Expanding Good Impact of content and commerce categories |
| 2050 | Achieving Net Zero | Building a sustainable industrial ecosystem with partners and local communities | Spreading Good Impact of content and commerce to global expansion |

Foundations

| | | |
|---|-----------------------|--|
| Advance operation of the ESG Committee/ESG Executive Consultation Group | Compliance management | Strengthen ESG communication with stakeholders |
|---|-----------------------|--|

022 / 023

ESG Governance

Aiming to grow into a sustainable corporation, CJ ENM established a system dedicated to ESG management. The structure promotes strategic and systematic ESG management, allowing the company to continuously and proactively manage ESG risks in an integrated manner. The ESG Committee, a top decision-making organization under the Board of Directors/BOCD, regularly reviews major ESG agendas including non-financial factors (e.g., environment, human rights, ethics and data security & privacy) that affect corporate value and sustainability, while playing a pivotal role in setting mid-to long-term ESG management directions and forming decisions. The ESG Executive Consultation Group establishes and performs mid-to long-term ESG management plans, while reporting major issues to the ESG Committee. The ESG Working Group, which consists of the ESG team and the department in charge, is operated in each field to implement ESG strategies and promote ESG activities related to the business. A total of 14 agendas were proposed in 2022 through seven committees, including the establishment of the ESG plan for 2022(Draft); the publication of ESG Report(Draft); the announcement of ECP INITIATIVE and YESGO philosophy(Draft); ESG related programs for partner companies and large-scale internal transactions. CJ ENM will ensure that ESG management is carried out through responding to issues in a timely manner and strengthen the company-wide integrated risk system.

ESG Governance Structure

ESG Committee (under the BOCD)
Once a quarter

- Deliberation and voting on establishment of major ESG strategies and policies, including environment, human rights, ethics, and shareholder value enhancement
- Deliberation and voting on conflicts of interest and fairness in internal transactions
- Report to the board of directors according to the agenda

ESG Executive Consultation Group
Once a quarter

- Establish a roadmap for ESG management
- Review ESG-related agendas

ESG Working Group
Frequently and regularly (discussable)

- Environmental management
- Supply chain management
- Human rights management
- Contribution to the local community

Commitment

CEO Message

“ We will create sustainable value through ESG management and bring happiness to our customers and stakeholders.”

Countries around the world started living with COVID-19 in 2022, but the business environment continues to face high inflations and interest rates due to the uncertainty raised by the Russia-Ukraine War. However, despite these circumstances, there is an increasing social demand regarding corporate management activities. Industries are being restructured with a particular focus on DT, AI, and ESG.

SK networks has been pursuing transition into a business-oriented investment company and striving consistently to strengthen existing business models while securing momentum for the sustainable happiness of various stakeholders.

In 2022, SK networks took more proactive measures to address climate change by strengthening the reduction measures as a part of the 2040 Net Zero Roadmap and joining the SBTi. We also invested in solar power generation facilities, implemented the EV100, and obtained an international certification related to environmental management infrastructures (ISO14001).

SK magic has been introducing various eco-friendly products to its customers. SK magic released a food waste disposer called 'Eco Clean', which contributes to the environment with its excellent functionality, and expanded the green Collection lineup (air cleaner, water purifier) made of eco-friendly plastics. Additionally, SK magic reinforced its eco-friendly efforts by obtaining the ZWTL Gold Grade (96% waste recycling rate) and joining the PACT for zero plastics.

SK rent-a-car opened the 'Eco lounge' in Jeju for customers to experience new electric vehicle (EV) models and accelerated the transition into an EV Business Model through the development of the 'EV Park Jeju', the largest EV Park in South Korea. In 2022, SK rent-a-car obtained government approval for the demonstration project on GHG reduction of EVs. In 2023, SK rent-a-car is planning to offer benefits to customers using EVs through the GHG offset system (carbon credit).

To accelerate the transition into an eco-friendly hotel, Walkerhill is reducing the use of disposables and expanding the range of products made from eco-friendly material and associated services. Walkerhill also took the initiative to reduce water consumption (increasing recycling rates) by investing in water reclamation and reuse facilities.

Since 2022, SK networks service has been consolidating its position as a solar power generation company. MINTIT established a sustainable collaboration system with the Ministry of Environment and cooperated with various social enterprises to expand its business model based on ICT resource recycling, offering inspection devices and braille learning devices for the visually impaired. In addition, SK networks acquired SK electlink, a leading private EV rapid-charging operator, and invested in preemptive solutions such as AI, alternative leather, and automated tractors to resolve global environmental and social issues.

SK networks operates three specialized committees (Personnel, ESG Management, and Audit Committees) under the Board of Directors (BOD) to form the foundations for ESG management driven by the BOD. Since 2022, SK networks has been assessing the independence, diversity, and expertise of the BOD and transparently disclosed the results. SK networks obtained an international certification for the anti-corruption management system (ISO 37001).

Furthermore, after joining the UNGC in May 2022, SK networks adopted the Declaration of Human Rights in September in support of its employees' happiness and human rights. We are also expanding the scope of ESG management by creating a sustainable supply chain through education and various mutual growth programs for business partners.

With such efforts, SK networks will continue to fulfill our corporate social responsibilities as the highest priority and ensure that all decisions are made based on the ESG management policy. Doing so will strengthen our position as a sustainable company, spread good influence, and contribute to the happiness of employees and stakeholders.

We look forward to receiving stakeholders' attention and support for the genuine efforts made by SK networks toward a sustainable future.

Thank you and sincerely,

CEO & President of SK networks **Lee Hojeong**

2022-2023 LG CNS Sustainability Report **Overview** Sustainable Support Solutions

Vision and Strategy

Vision and 2023 Management Policy

LG CNS is a DX-specialized company that provides digital transformation (DX) services with AI, big data, and cloud by creating an open ecosystem with technology-specialized companies. By driving 'new innovations centered on the essence of the industry,' 'enhanced competitiveness centered on the field,' and 'a mindset to find growth opportunities and raise the status of LG CNS,' we aim to establish ourselves as a Digital Growth Partner that achieves 'Innovate Together - Grow Together - Share Together.'

VISION

DIGITAL GROWTH PARTNER

Acceleration of Elite & Specialized Competency

Fundamental Innovation of Business Structure & Model

Higher Growth through Customer Value Innovation

- Continuous innovation of professional competencies
- Consolidating innovation in working methods and advancing collaboration
- Promoting human resource development, business innovation, creative entrepreneurial leadership

- Pursuing business based on professional competencies
- Acceleration in platform-based subscription business
- Expanding and strengthening the open ecosystem

- Fully committed to exploring and delivering the values of customer experience
- Driving growth by creating first-class businesses
- Pushing the boundaries of conversion to embrace new challenges

Innovate Together - Grow Together - Share Together

ESG Highlights ESG Fact Book Appendix

Enhancing Business Capabilities to Increase Customer Value

In addition to securing competitiveness in the main business, we are committed to 'enhancing customer value' by continuously securing the latest information technology leadership and domain knowledge to contribute to the actual competitiveness of our clients.

Strengthening Core Business

- Improve the quality and efficiency of our flagship business by transforming our business execution system
- Promote focused development of a group of experts with industry and technology expertise
- Focus on the voice of the client through project site-centered management

Expanding Markets/ Offerings

- Expand service offerings to existing clients and acquire new ones
- Lay the groundwork for continued growth by entering the global market
- Identify and execute new businesses that leverage our capabilities and experience

Increasing Customer Value

- Focus on problem-solving by strengthening business consultancy capabilities alongside technical expertise
- Discover unmet needs and drive DX by executing customized account planning for each strategic client
- Enhance tangible value by conducting R&D projects in a way that 'solves problems that clients need to solve, with the clients'

Securing the Foundation for Sustainable Growth through Selective Focus by Portfolio

| Actively Engage in External Business | Organize Business Execution | Full-Fledged Growth | Raise DX Service Levels |
|--|---|---|---|
| <ul style="list-style-type: none"> • Increase the proportion of external businesses (cloud, finance, smart logistics, etc.) • Establish a global business foundation (Enterprise SW, etc.) | <ul style="list-style-type: none"> • Innovate execution system using low-cost GDC and Coding AI technology • Expand assetization of industry, client, and technology capabilities | <ul style="list-style-type: none"> • Lead LG Group DX centering on smart factory and digital marketing • Accelerate growth by expanding cloud-centric open business | <ul style="list-style-type: none"> • Secure BP by expanding business inside and outside the LG Group • Lead global-level DX by actively applying BP to core clients |

SK SILTRON 2023 지속가능경영보고서 (중문)

SK siltron 介绍 ESG战略和治理 Part 1. 实质性议题
CEO致辞 创造社会价值 公司介绍 业务介绍 产品介绍

Part 2. General Topic 附录 005

创造社会价值

SK集团DBL经营

SK集团同时追求经济价值和社会价值的双重底线(Double Bottom Line, 简称DBL), 并为打造社会型企业生态体系开展各种活动。SK siltron将“追求社会价值”确立为核心经营战略, 以回应客户、环境和社会需求, 超越所谓“社会责任”的被动方式, 通过主动的“创造社会价值”为企业和社区的可持续发展做出贡献。

双重底线(DBL)

EV Economic Value 经济价值

SV Social Value 社会价值

通过商业模式创新追求DBL, 实现EV+SV价值最大化

SK siltron 可持续幸福

创造社会价值¹⁾

SK siltron将企业愿景“成为晶圆业界世界顶尖企业(Wafer Biz. Global Top Player)”作为目标, 积极构建双赢的发展模式。尤其, 超越所谓“社会责任”的被动方式, 积极创造社会价值, 努力推动企业和社会的可持续发展。截至2022年SK siltron创造的社会价值较前同比增加19%, 达到5,206亿韩元。SK siltron将持续普及社会价值, 实现社会的可持续幸福。

¹⁾ 因环境和社会绩效评价方式的变更, 数据数和上一年度报告不一致

2021年社会价值 4,369亿韩元

2022年社会价值 5,206亿韩元 (+19%)

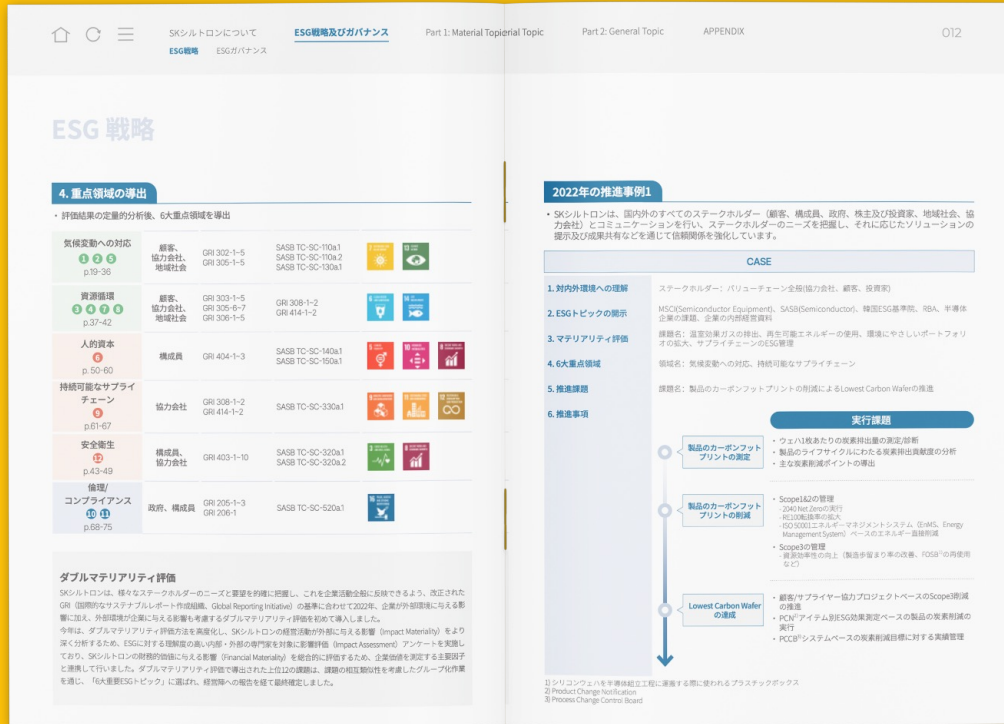

经济贡献贡献成果
通过企业活动以经济贡献为目的创造价值, 包括雇佣、分红、纳税等。

环境成果
产品与服务的生产、销售过程中创造的社
会价值

社会成果
依靠社区公益创造的价值, 如企业社
会责任(CSR)活动、共同发展、员工志愿者
活动等

| 项目 | 2021 | 2022 | 变化 |
|----------------------|-------|-------|-------|
| 雇佣 | 4,848 | 5,520 | +15% |
| 纳税 | 715 | 821 | +14% |
| 环境(工艺) | -852 | -820 | +4% |
| 共同 发展 社会 公益 | 173 | 193 | +9% |
| 劳动 | 13 | 122 | +838% |
